EUROPE'S PREMIER PLATFORM FOR MINING, CRITICAL MINERALS, TECHNOLOGY, AI & METALS PROCESSING — DRIVING INNOVATION, INVESTMENT & INDUSTRIAL GROWTH

The **Mining & Critical Minerals Europe Conference & Exhibition** is the region's **international critical minerals, commodities, investment, clean energy and low-carbon technologies event**, bringing together the **entire mineral resources value chain** to London.

As the global energy transition accelerates, delivering a clean-energy future depends on **secure access to critical minerals, resilient supply chains**, and a strategic shift away from fossil fuels toward **lower-carbon, hydrogen, renewable, and nuclear energy systems**. Critical minerals are fundamental to **nation's security, economic prosperity, and industrial competitiveness**, powering **advanced sectors** such as **semiconductors, batteries, electric vehicles, aerospace, defence, wind turbines, and solar technologies**.

This landmark event highlights the **critical mineral & strategic commodities, mining investment trends, exploration opportunities, precious, base & bulk metals, financing models, ESG and sustainability goals, commodity forecasts, and technological innovations** that are shaping the new era of the mining and energy industry.

Position your company at the **forefront of a mining and critical minerals sector** undergoing **structural transformation** to support the global transition to a green-energy future. Join **15+ exhibitors** from across the mineral resources ecosystem and meet **200+ key decision makers, qualified buyers and industry professionals** actively seeking **projects, technologies and solutions** that will accelerate mining momentum in Europe and beyond.

Held in **London**, Mining & Critical Minerals Europe connects **global investors, mining companies, government representatives, investment funds, banks, industry associations, service companies and equipment producers** through personalised **networking platforms, 1-2-1 meetings**, and high-level social events designed to **unlock new partnerships and investment opportunities**.

WHAT TO EXPECT

STRATEGIC CONFERENCE & DISCUSSIONS

Our industry leaders provide new perspectives, share cutting edge knowledge and insights to understand the rapidly changing industry.

Panel discussions, keynote & premium presentations or fire side chats present a perfect platform for more intellectual discourse. Moreover, conversations with other like-minded individuals provides a great opportunity to exchange viewpoints and foster new business contacts.

EXHIBITION FLOOR

At Mining & Critical Minerals, the exhibition floor provides attendees the perfect opportunity to discover the latest mining projects and new discoveries and experience the latest technological gadgets and applications in person.

Speak to mining companies CEOs and discuss the feasibility of the projects and financing options. At the same time witness how latest innovations can be applied to enhance various processes in the mining sector, in ways never even previously thought possible.

NETWORKING MEALS & EVENING DRINKS RECEPTION

Food and drinks always make excellent conversation starters. Hence Mining & Critical Minerals Conferences and Exhibitions devote substantial time to create the perfect environment for relaxed, casual networking meals and drinks.

With no set time limit on how long each meeting should last, attendees can freely mingle and discover new opportunities and contacts. The team is also on site to match make attendees based on their common business profiles or objectives.

1-2-1 MEETINGS

Undivided one to one attention is a tried and tested networking method. They can be a great platform to have confidential, direct and targeted conversations. Mining & Critical Minerals Events, with the help of the virtual business matching tool or on site staff introductions, facilitate such networking opportunities.

WHAT YOU NEED TO KNOW ABOUT RARE EARTH ELEMENTS (REES)

What are Rare Earth Elements (REEs)?

They provide significant value to a nation's national security, energy independence, environmental future, and economic growth. Critical REEs are those deemed as supply risk and crucial towards clean energy technologies.

How many REEs are there?

There are 17 REEs as found in the periodic table.
